- BAQSIMI® sales consisting of \$30.9 million in sales made by the Company directly to its customers, which are recorded as part of Product Revenues, net, and \$7.6 million in sales made by Eli Lilly & Company on behalf of the Company under a Transition Services Agreement, which resulted in a net payment to the Company of \$3.0 million after deducting cost of sales and other expenses and was recorded in Other Revenues
- Epinephrine sales increased primarily due to an increase in unit volumes as a result of an increase in demand caused by other supplier shortages
- Primatene MIST® sales increased primarily due to an increase in unit volumes
- Lidocaine and phytonadione sales decreased primarily due to a decrease in unit volumes as a result of other suppliers returning to their historical distribution levels
- Enoxaparin and naloxone sales decreased primarily due to a decrease in unit volumes
- Other finished pharmaceutical product sales changes were primarily due to:
 - During the quarter, we did not have any sales of MPA, as our Active Pharmaceutical Ingredient (“API”) supplier discontinued making the active ingredient, a \$4.6 million impact

Non-GAAP Financial Measures

To supplement its consolidated financial statements, which are prepared and presented in accordance with U.S. generally accepted accounting principles (“GAAP”), the Company is disclosing non-GAAP financial measures when providing financial results. The Company believes that an evaluation of its ongoing operations (and comparisons of its current operations with historical and future operations) would be difficult if the disclosure of its financial results were limited to financial measures prepared only in accordance with GAAP. As a result, the Company is disclosing certain non-GAAP results, including (i) Adjusted non-GAAP net income (loss) and (ii) Adjusted non-GAAP diluted EPS, which exclude amortization expense, share-based compensation, impairment charges, expenses related to our acquisition of BAQSIMI[®], certain debt issuance costs, legal settlements, and other one-time events in order to supplement investors’ and other readers’ understanding and assessment of the Company’s financial performance because the Company’s management uses these measures internally for forecasting, budgeting, and measuring its operating performance. Whenever the Company uses such non-GAAP measures, it will provide a reconciliation of non-GAAP financial measures to their most directly comparable GAAP financial measures. Investors and other readers are encouraged to review the related GAAP financial measures and the reconciliation of non-GAAP measures to their most directly

comparable GAAP measures set forth below and should consider non-GAAP measures only as a supplement to, not as a substitute for or as a superior measure to, measures of financial performance prepared in accordance with GAAP.
